

# Room Booking Door Signs

Much more than just improved communication

## A flexible room booking display solution

Digital Sign Service is a room booking display solution for managing meeting rooms to ensure that up-to-date information is available to visitors and staff so they are always informed about future and current meetings.

## Digital Sign Service

Your digital signage solution for Microsoft Exchange and Office 365

Digital Sign Service lets you seamlessly integrate your digital signs with Microsoft Exchange and Office 365. Book a meeting in Microsoft Outlook® and the information is automatically displayed on the digital signs outside the meeting rooms to see who booked the room or if the room is available.

Use the software on a smaller screen to show availability of workspaces / hot desks etc. Book in advance or on demand by the workstation when combined with our meeting management solution Resource Central.

## Display meetings for more rooms

View meetings for several rooms around the facility on one display. Use our digital signage software on a larger display to create an updated overview of all current and upcoming meetings, in your reception or common areas.

## Room booking displays

The intuitive interface on the door signs ensures easy room booking and optimizes your internal resource utilization. The dynamic solution keeps employees and visitors informed of current and future meetings taking place in the room.

With Digital Sign Service, you are able to see if the room is available and view today's upcoming meetings. You can book, confirm, extend, and end meetings directly at the door sign by touching the screen.

## Features

### Digital Sign Service

Inform guests and coworkers of events taking place in a meeting room booked via Microsoft Outlook®, Exchange and Office 365.

- » View current and / or upcoming meetings
- » Create, confirm and edit meetings directly on the screen

## Software and hardware

It is possible to buy hardware directly through Add-On Products or our local reseller.

We offer a range of quality hardware in modern designs. These include larger displays for meeting overview, desk booking displays and accessories for meeting room touch panel displays, including multiple types of wall mounts and stands.

As a complete solution we offer hardware with pre-installed software. See a selection of our door signs below.

DS-JAR101-MR | 10" Room Booking Display

DS-1050 | 10" Room Booking Display

We offer a wider selection of displays. See a selection of our desk booking displays and meeting directory displays below.

DS-0350 | 3.5" Desk Booking Display

DS-4900 | 49" Meeting Directory Display

Add-On Products® is a market leading provider of add-ons to Microsoft Outlook®, Exchange & Office 365.
