

Structured availability with Smart Office Solutions

Give employees more control over their work environment with smart office solutions

Smart office products connect people to your office building with an ecosystem of hardware and software that helps them locate the best workspaces, find colleagues, and spontaneously book free meeting rooms.

Flexible workspaces give employees autonomy and empower them to do their best work.

Add-On Products

Add-On Products® is a market leading provider of add-ons to Microsoft Outlook®, Exchange & Office 365.

Our software improves work processes, communication, and information-sharing within your organization.

Smart Office Solutions

Simplify meeting room and workspace management to enhance collaboration and productivity

Benefits

Employee Benefits

Quickly locate free meeting rooms, book workspaces that match their activities, find workspaces near a specific team or colleague, and reserve hot desks before they arrive at the office.

Workplace Analytics

Gain access to valuable workplace analytics to make data-driven decisions to help you make adjustments to your workplace according to shifting trends and needs.

Sustainability

Improve office sustainability and your company's ecological footprint with flexible working arrangement and less office space.

Attract and Retrain Talent

Flexibility is the future and employees seek workplaces where they can do their best work without the confines of a traditional 9-to-5 office environment.

Flexible Seating

Take away the ambiguity of figuring out which workspaces are available, giving employees the ability to quickly identify and book workspaces anytime, anywhere.

Platforms

- 1 Book from mobile devices
Schedule workspaces on the go
- 2 Book from laptop or desktops
Include additional services
- 3 Book from meeting room signs
Eliminate no-shows
- 4 Book from desk devices
Help maximize space utilization

Trade a hodgepodge of workspace management solutions for a seamless smart office platform

Smart office solutions help you get more out of your workspace while improving employee productivity and happiness. With more autonomy and control, employees can work smarter. Meanwhile, the need for space will be minimized and your operational costs will go down.

Create an efficient, flexible, and effective workplace that employees love

Add-On Products is here to help you collaborate more effectively and work more efficiently than ever before. Let's discuss how our smart office solutions can help to transform your office.
